Welcome to the Beacon Program and the Beacon Portal

Suffolk County Community College's Beacon program provides college credit for certified classes at your high school. If you are taking any of these classes at your high school or at BOCES you may apply to the Beacon program and register for college credit at Suffolk through the Beacon Portal. For more information about Suffolk's Beacon program see:

https://www.sunysuffolk.edu/Beacon

Here is how this works:

- Verify with your high school teacher that the course you are taking is certified for the program.
- Discuss the opportunity for obtaining college credit for your high school class with your parent or guardian. Note, there is a tuition charge for the college course of \$57 per college credit payable to the College. The College will mail a tuition bill to students' homes after they register. Students/Parents will then have the option to mail a check for tuition to SCCC or pay online by credit card on MySCCC.
- Go to Suffolk's Beacon portal @ <u>https://beacon.sunysuffolk.edu</u> and create a Beacon account. Once on the site:
 - Click on the High School Student Icon

 Create a Beacon portal account which you will use each time you access the Beacon portal. The information you provide here will also be your application to Suffolk for the Beacon program and will create your student record at Suffolk, so please respond fully and carefully to the information requested.

 Upon successfully completing the information for your account, your next step is to submit your agreement by typing your name in the box provided and clicking to submit. This will serve as you signature on your Suffolk application.

 Next, you will be brought to the "Apply for Classes" page, which will display classes certified at your high school. You will also see a tab for courses certified at BOCES facilities. You may choose to apply for classes at this time or return later to apply. See the Registration Guides for instruction on the "Apply for Classes" process.
